

Privacy Policy

Last Updated: August 7, 2026

1. Introduction

This Privacy Policy describes how GRIP (Geopolitical Risk Interpretation Platform) (the "Application") collects, uses, stores, and protects information when you access or use the Application.

The Application is designed to perform geopolitical analysis based on analytical models and user-defined inputs. Respect for user privacy is a fundamental principle of the Application's design.

By using the Application, you acknowledge that you have read and understood this Privacy Policy.

2. Information We Collect

Information You Provide:

The Application may store information that you voluntarily create within the Application, including:

Custom Country profiles;

Custom Scenario profiles;

Application preferences and settings;

Feedback or support messages voluntarily sent to the Licensor.

The Application does not require account registration.

Automatically Collected Information:

Depending on the platform through which the Application is distributed, limited technical information may be collected automatically, including:

device model;

operating system version;

application version;

crash reports;

purchase verification information;

technical diagnostic information required for application stability.

Such information is collected by the operating system or the official application marketplace and may not be directly accessible to the Licensor.

Information We Do Not Collect:

The Application does not intentionally collect:

precise location data;
contacts;
photographs;
microphone recordings;
camera images;
advertising identifiers for personalized advertising;
biometric information;
health information;
financial payment credentials.

3. How Information Is Used

Information processed by the Application is used solely to:

perform geopolitical calculations;
generate analytical results;
store user-created profiles;
maintain application functionality;
process purchases through official distribution platforms;
improve application stability and reliability;
respond to support requests submitted by Users.

The Application is not designed to build advertising profiles or track User behaviour across third-party services.

4. Local Data Storage

Unless expressly stated otherwise in a future version of the Application, Custom Countries, Custom Scenarios, and application settings are stored locally on the User's device.

The Licensor does not routinely receive or store copies of such information.

If the User removes the Application or clears its local data, such locally stored information may become permanently unavailable.

5. Third-Party Services

The Application may rely on services provided by third parties, including:

Google Play;
Apple App Store.

These platforms may independently process certain information necessary for:

payment processing;

purchase verification;
application delivery;
software updates;
fraud prevention;
compliance with applicable laws.

The processing of such information is governed by the respective privacy policies of those third-party platform providers.

6. Data Security

Reasonable technical and organizational measures are used to protect information processed by the Application.

However, no electronic storage system or method of data transmission over the Internet can be guaranteed to be completely secure. Accordingly, the Licensor cannot guarantee absolute security of any information.

7. Children's Privacy

The Application is not specifically directed toward children.

Where applicable law requires parental consent for the processing of personal information relating to minors, responsibility for obtaining such consent rests with the User or the User's legal guardian.

8. International Use

The Application may be downloaded and used in multiple countries.

Users are responsible for ensuring that their use of the Application complies with the laws applicable in their jurisdiction.

9. Changes to this Privacy Policy

The Licensor reserves the right to modify or update this Privacy Policy at any time.

The most current version shall be published within the Application and/or on the official website.

Continued use of the Application following publication of an updated Privacy Policy constitutes acceptance of the revised version to the extent permitted by applicable law.

10. Contact Information

For privacy-related requests, legal notices, or support concerning the Application, Users may contact the Licensor using the following contact information.
